

The Amazing Son In Law (Charlie Wade)

Chapter 3490)

Seeing Chen 's anger, Charlie laughed instead, and said with emotion: "Oh, I suddenly remembered that someone asked me a similar question more than a year ago.

She asked me whether he was here to celebrate my birthday or Come to borrow money, don't say it, the way you just said this is indeed a bit like her."

Chen scolded coldly: "If you can borrow money at someone's birthday banquet, then you are really f*cking enough!"

Charlie sighed: "Yeah, it's quite f*cking. It's not a last resort. Who would want to borrow money on that occasion? It's just that there was a life-saver who was seriously ill at the time and needed money urgently, so I could only Give it a try, shamelessly."

Chen 's expression eased a little, and he said coldly: "Okay, no one wants to listen to your story, let's get to the point!"

Charlie smiled and said: "Okay, get to the point. As I just said, the two sides cease fire and you withdraw troops. This is the prerequisite. On the basis that you meet our prerequisite, our second condition is ten thousand The Dragon Palace must all get out of Syria!"

"Grass!" Chen was suddenly furious.

He stood up, his fingers almost touched the tip of Charlie's nose, and gritted his teeth and cursed: "You f*cking trick me?! Not only let us withdraw our troops, but also let us get out of Syria. Who the f*ck gave you the courage to let you dare? Talking to me like this?! You don't really put my Ten Thousand Dragon Palace in your eyes!"

Charlie said coldly: "I didn't put you Wanlong Temple in my eyes! I wanted you to get out of Syria because I didn't want to kill too many of you, and I wanted to save you a meal! I love you baby! ! You grow up so big, don't you even think about it?"

As he said, Charlie's expression became cold, and he said word by word: "Look at your Wanlong Palace.

More than 2,000 people died in one day. How are you going to fight this battle?"

"You fifteen thousand people stay here. It is a huge expense for people to eat horses and feed every day. How long can you last?"

"And our materials are enough to easily support 10,000 people for a year! It's not a problem to tighten your belt for a year and a half!"

"Our weapons and ammunition were enough to kill you ten times eight times. Then thanks to your 2,500-person transport team, we now have enough weapons and ammunition to kill you 15,000 people eighteen times. Even twenty-eight times!"

“We also seized a large number of incendiary grenades from the gang of soldiers who died. Once you charge, these incendiary grenades are enough to ignite your soldiers in pieces!”

“At that time, as a commander, you will see burning fireballs at the foot of the mountain, rolling down the hillside, and every fireball is a soldier of your Wanlong Temple!”

“So then you will see with your own eyes that your soldiers are burned into black charcoal by your own incendiary grenades, piled up on the entire hillside, the entire foot of the mountain!”

“At that time, the whole valley will be filled with the smell of burnt human flesh, the smell may be very fragrant, but you just want to nauseate when you smell it, and you even want to spit out your stomach!”

Speaking of this, Charlie sneered, shook his head and said, “Oh, what irony, this kind of cruel and inhuman weapon was not prepared by us, but you prepared it yourself and delivered it to us!”

At this moment, Chen seemed to have encountered a sky thunder in his soul, and his whole person was already dumbfounded!

I don't know why, he was accustomed to the wind and waves, and he was frightened by Charlie's words!

He had even imagined in his mind the scene of countless Ten Thousand Dragons Temple fighters, screaming hoarsely, rolling down the hillside with a blazing fire on their bodies.

At this moment, he felt as if he saw the appearance of hell.

He looked at Charlie in horror, and blurted out, “You... Who are you!”

Charlie smiled slightly: “My surname is Wade, you can call me Master Wade!”

The commander of the government army on the side was already shocked.
