## Chapter 3491 )

He himself advocated peace talks. Hearing these contents, he strengthened his views even more.

So, he blurted out subconsciously: "Master wade...If we withdraw, can you leave the opposition armed camp and join the government? If you can, everything before can be wiped out, and we will give Hunter (Hamid) full autonomy. , And even let him remain neutral in our battles with other opposition forces.

I wonder if Commander Hunter (Hamid) intended it?"

The government forces themselves were very pessimistic about the attack on Hunter (Hamid).

Therefore, they even hope to include Hunter (Hamid).

Because they recognized Hunter (Hamid)'s warfare capabilities very much.

If he could join the government army, it would really have the best of both worlds.

When Chen heard this, he immediately angered: "What do you mean? Don't forget, Hunter (Hamid) is still carrying the blood debt of more than 2,500 brothers in the Wanlong Palace!"

Charlie said calmly: "You are welcome to ask for this debt at any time. I have already said that our weapons and ammunition are enough to kill you eight times, even eighteen times, and the soldiers are itchy forehands these days.

A man, it's best to launch an attack today. If you are a tortoise, then we can continue to stalemate. We don't care."

Chen 's blood surged, thinking of the Lord Abbas's confession of his own affairs, he took advantage of the situation and yelled: "The surname is Wade, go back and tell Hunter (Hamid), it will take ten days, but it will take five days. , Kill all of you!"

The commander of the government army suddenly became anxious and blurted out: "Chen ! What do you mean?"

Charlie smiled and said: "Don't you see this? They are deliberately sabotaging the peace talks between us and you, and they don't want us to join the government army!"

Chen didn't expect Charlie to tell his fundamental motives at once, and hurriedly concealed: "I didn't mean this! It was you who provoked every step!"

Charlie ignored him and said to the government army commander: "We have a fable in China, called the snipe and the clam fight, and the fisherman is profitable.

It probably means that a long-billed water bird wants to eat a plump river. Mussel, but his mouth was tightly clamped by the river mussel. When the two sides were in a stalemate with each other, the fishermen who were fishing passed by here and directly took the two guys into the bag."

Speaking of this, Charlie said again: "Now, you are the water bird, we are the river mussel, and Wanlongdian is the fisherman! What they hope most is that Syria will always be in turmoil and the government forces will never have a peaceful day. , Without the ability to protect themselves, they can only cede the land to the Wanlong Temple and request the help and protection of the Wanlong Temple, so that they can maximize their interests in Syria."

Chen blurted out: "You don't talk nonsense here! Our terms of cooperation with the government forces are that after all opposition forces are eliminated, the government forces will allocate land to us to establish mercenary bases! At that time, the entire Syrian interior will be peaceful and peaceful.

There is no situation where the snipe and the clam compete and the fisherman gains!"

The commander of the government army frowned and said seriously: "Our cooperation agreement with Wanlong Temple is indeed like this.

Only when we eliminate all opposition parties will we give them land and let them establish bases in Syria. So what you said This situation does not exist."

Charlie sneered and said, "Hey, you are really stupid, do you really think they will help you completely eliminate the opposition?"

"Only when Syria has been in a state of turmoil and always needs their help, can they continue to ask for various benefits from you!"

"If you think about it again, if Syria is truly peaceful then your government army can accept it indifferently. Is there a powerful armed organization like the Wanlong Temple in your territory?"

"At that time, even if the Wanlong Palace does not break the contract, you will definitely break the contract, because our Chinese ancestors have long said that where the bed is, it will allow others to sleep peacefully!"

"So, I dare to pack a vote with you. Even if Wanlong Temple apparently helped you clear out the opposition, after they get your 100 square kilometers of land, they will definitely cultivate new opposition in secret and jump out to continue to fight against you Continue to drag you into the quagmire of war!"

"In that case, you will fall into a scorched civil war again, but that has nothing to do with the Wanlong Palace."

"At that time, the Wanlong Temple may find you again, and propose that you give them another 100 square kilometers of land, and they will help you clear out all the opposition!"

"If this goes on and on, you are like wounded soldiers covered in wounds. The wounds have festered and healed and healed and festered repeatedly.

Under such inhuman torture, you will never be a healthy and strong man, you can only live with them forever. In the shadows of you!"
