

The Amazing Son In Law (Charlie Wade)

Chapter 3503)

Said said without hesitation: "Don't worry, we will abide by our promise!"

Charlie said: "Well, let me leave Chen for you first, and you will interrogate him immediately. I will let him cooperate fully, know everything, and say nothing. After you fix all the evidence, send a helicopter. Send him to Hunter (Hamid), and at the same time you will follow along with the armistice agreement, and sign the agreement with Hunter (Hamid)."

Said asked puzzledly: "Master Wade, do you want Chen to go to Hunter (Hamid)?"

"No." Charlie said lightly: "This person is still useful to me, I want to take him away."

Said knew that with Charlie's vast magical powers, it was impossible to be Hunter (Hamid)'s military division. He thought it must be a great god-level figure Hunter (Hamid) moved from outside, so he hurriedly agreed and said, "Don't worry. We immediately conducted an unannounced trial on him, and after fixing the evidence, I personally sent him to Hunter (Hamid) to find you!"

"Okay." Charlie nodded, and said again: "Go and call Chen over, let me ask him a few words."

"Okay Master Wade, wait a minute!"

.....

At this time, Chen is experiencing the greatest pain and torment of his life.

Seeing his brother with his own eyes, being completely betrayed by himself, tied up by the enemy, pulled away by carts and carts, and uncertain about his future, this is really too tormenting for him.

Every soldier in the Wanlong Palace cast the most vicious insults and curses on him, and those angry eyes deeply hurt his heart.

He even wanted to close his eyes and not look at their resentful eyes, but he couldn't do it at all.

Because even his eyelids are no longer under his control.

His consciousness is like a parasite in his body, he can feel everything, but he can't control anything.

His own body has become his strongest prison.

Under the sun, nothing is more painful than this.

At this moment, Said came to him and said: "Chen, Master Wade is looking for you, hurry over!"

Hearing the three words of Master Wade, Chen's consciousness was panicked, but his body had already moved involuntarily, and without hesitation for half a second, he immediately ran towards the conference room.

Flying to the meeting room, Chen felt his body bowed to Charlie uncontrollably, and said respectfully: "Master Wade, what do you want me to do?"

Charlie said calmly: "Said will take you to make confession and transcript later.

You must cooperate with him completely and tell him all your shameful activities in Wanlong Palace. Do you understand??"

Although Chen had 10,000 rejections with his own consciousness, his body still said uncontrollably: "Good Master Wade, I will definitely cooperate with all my strength..."

Charlie nodded in satisfaction, and then said to Said: "Sayed, you remember to find someone proficient in Chinese or English writing from your team, and record all the transcripts in detail.

Make a paper document. When you send him to Hunter (Hamid), give me a copy of the transcript. I want to see it."

Said agreed without hesitation, and said, "Master Wade, don't worry, we will try to get everything done in the fastest time, and then I will take him to see you!"

"Okay." Charlie stood up and said lightly: "You go to arrange a helicopter and take me to the meeting place before, I will go back and wait for you."
